Experience the expressive power of a  
grand piano with Clavinova

Real grand piano sound, just for you

With two world-renowned concert grand pianos available at the touch of a button, the Clavinova lets you choose the perfect piano tone for the music you want to play.

Offering far more than just sampled sound, the Clavinova reproduces the expressive characteristics of these two unique instruments in meticulous detail.

## The tone of the finest concert grand pianos in the world

Yamaha's flagship 9' concert grand piano — the CFX, offers sparkling highs and a powerful resonant bass with a sound that projects to the furthest reaches of any concert hall. The Bösendorfer Imperial is a piano known throughout its long history for the classic Viennese sound. Both are renowned pianos characterized by distinctive traits like power, versatility, subtlety and lightness. Both are only found in Clavinova digital pianos.

## Superb playability and feel

Any pianist knows that playing well relies on everything from the touch of the keyboard to the feel of the pedals. The Clavinova offers authentic keyboard touch and pedal feel together as though you're sitting down to play at a fine grand piano.

The Clavinova utilizes Yamaha's acclaimed Virtual Resonance Modeling (VRM) technology to reproduce the resonance characteristics of every string in nuanced detail. This passion for authenticity is also evident in the GP Response Damper Pedal, which constantly detects pedal pressure and return. The result is a dynamic range and feel unmatched by other digital pianos in their class.

## Practice made perfect

With the Clavinova, practice is something to look forward to and makes it easy to improve your performance.

The CLP Series uses some of the most widely accepted exercises in the world to train your hands. Explore proven practice methods from Hanon, Bayer, Czerny and Burgmüller. The CVP Series features a user-friendly touch screen that displays easy-to-read score notation. The CVP also offers practical features like automatic page turning and a bouncing ball that let you know exactly where you are in the music.

### Yamaha's Environmental Efforts

Yamaha Corp. and Yamaha Motor Co., Ltd. are utilizing planted trees in Indonesia under a five year plan called The Yamaha Forest that began in 2005. The second phase of this activity will continue for five years from 2010. The Yamaha Forest is an effort that contributes to regional society through environmental conservation based on planted forests and support for education in Indonesia, where the two companies have production and sales centers. Headquarters and all factories have obtained environmental management ISO 14001 certification, and are conducting continuous environmental conservation activities.
